

Dear Arizona Companions:

With the onset of the Coronavirus, concerns have been raised for some members of our community who may need help during this time with meals, meds. appointments, or anything else. I know we are all far apart but there are connections between us that we perhaps are not aware of. There are members of the MOFW in every state in the Union and many countries of the world.

If there is anything I can do to help or perhaps Chaplain Tom Mohler or another person in the AZ Commandery or the MOFW please reach out to us. We are all together in this together as one big family. Stay healthy in body, mind and soul. We will get through this.

I look forward to getting together as a Command soon. Till then we will continue to work on the by AZ MOFW Operations Manual and be prepared to be an active Commandery. Anyone who does not have a copy can receive one through me via email. I am also open to any discussions you may have reference the MOFW. Perhaps trips, speakers or services for the future.

I would like to let you know that at the National level we are looking forward and planning for the Biannual Convention of 2021. The exact date is To Be Announced (TBA) but I do want to give you a heads up that the location we are currently working on is New York City. All Companions are encouraged to attend this three day event of meetings, fellowship, awards ceremonies and the formal Dinner & Dance, . There will certainly be much more on this in the future.

Deus et Libertas

Brad Hopkins
